To whom it may concern:

This letter is in regards to one of your callers Shanda. I am absolutely impressed by her professionalism and communication skills. She constantly keeps me updated on the progress that she is making and gives me pointers on the industries that she is having good luck with.

I was a little skeptical at first signing up because I was having someone half way across the country making the calls for me, but having a caller like Shanda makes me feel like she is right in the office next to me.

Thanks for all of your hard work Shanda...

Sincerely,

Chris Drake
